

Leo Giesen

Leo has a huge passion for computer science and economics, which is why he studies Information Systems and ambitiously works on personal projects in his free time like his website.

In order to put his insights into practice Leo started working at [move e. V.](#) and at the chair of Information Systems at WWU, which fostered his analytical and conceptional abilities.

In his projects at move he developed a strength in communication and teamwork through intense group work. From those projects and his course of study, Leo acquired the skill of goal orientated work, great time management and precise project planning.

Work History

- 2019-10 - today **Student Assistant**
- Chair of Information Systems, Münster
I enthusiastically work as a student assistant for [Dr. Chasin](#) for IT projects and research at Westphalian Wilhelms-University Münster, where I gained insights into modern technologies.
- 2019-03 - today **Student Consultant** - move e. V.
At move I developed great communication skills and learned how to contribute an innovative perspective to foster productive teamwork.
- 2016-06 - 2016-07 **Assistant of Insolvency Administrator**
- Boege Rohde Luebbehuesen, Hamburg
Gained experience in writing insolvency reports.
