

Leo Giesen

I am fascinated by various information technologies, such as machine learning. Thus, this passion for gaining insights from data drives me to study Information Systems at the University of Münster with a focus on business intelligence. In internships and real-life projects at the student consultancy move, I put the acquired theoretical knowledge from my studies into practice. Furthermore, I work on personal projects in my free time and work at the chair of Information Systems, fostering my analytical and conceptual abilities.

Work Experience

- 09/2022 - Working Student Data Science
today Research & Development
@ viadee AG, Münster
- Data Science: Data Visualization & Analytics
 - Machine Learning
